Introducing *The Study Skills Handbook* 7

How to use *The Study Skills Handbook* 2
Where to begin 3
Seven approaches to learning 4
What do I want from university? 6

1 Preparing for university 7

Applying to university 8
Am I ready for Higher Education? 9
What to expect in Higher Education 10
Independent study 12
Independent learning: taking control 73
Skills and personal development 14
The student's year 75
What is expected from you? 76
Anxieties and resources 77
Managing anxieties 78
What are my personal resources? 20
Eight things you can do before starting at university 27
joining up and induction 23
Review 24

2 Identifying your skills 25

Five study-skills components 26
Skills and qualities you have now 27
Current skills and qualities 29
Turning personal skills into academic skills 30
Study skills: priorities, stage 1 37
Study skills: priorities, stage 2 32
Study skills: action plan 33
Monitoring skills development 34
Personal profiles 35
Transferable and soft employment skills 36
Turning academic skills into transferable and soft employment skills 37
Recording achievement 38
Developing a portfolio 39
Review 40

3 Intelligence and learning 41

'Am I intelligent enough for university?' 42
Nine different views of intelligence 43
What is 'learning'? 48
Six conditions for learning 50
Optimal learning 53
Review 54

4 The C-R-E-A-M strategy for learning - Creative, Reflective, Effective, Active, Motivated 55

Finding your creative streak 56
Be a professor - and other ideas 57
Creative learning 58
What is my learning style? 59
Reflective learning 61
How well am I doing? 62
Reflective learning journals 63
Virtue versus effectiveness 64
Effective learning 66
Settling down to study 67
When, how and where? 68
Organising space for study 69
Managing your time 70
Effective diary-keeping 77
Ten time-saving suggestions 73
Study time 74
Where does the time go? 75
Time circle 76
Time management 77
Priority organiser 78
Working backwards from deadlines 79
Combining work and study effectively 80
Effective management of work-based projects 87
Effective management of study-release time 82
Active learning 83
Emphasis on action! 84
Active learning strategies 85
Motivated learning 86
What do I aim to achieve at university? 87
Using desired outcomes to guide study strategy 88
Achieving desired outcomes 90
The CREAM strategy 97
Review 92

5 Working with others 93

Studying with others 94
Ways of working with others 95
Talking and listening skills 96
Making your point 97
Making the group work 98
Being an effective group member 99
Dealing with difficult moments in the group 700
Prejudice, unfairness and discrimination 707
Dealing with unfair discrimination 702
Coping with unfair discrimination 703
How well do I contribute to seminars and groups? 704
Study support networks 705

Sharing work without cheating 706
Making a presentation or giving a talk 707
How effective am I in giving a talk? 709
Being aware of your audience 770
Review 770

6 Research skills 777

Identifying the task 772
Making the most of the library 773
Finding information in the library 774
Identifying and selecting relevant information 775
Am I a smart reader? 776
Improving reading comprehension 779
Improving reading speed 720
Strategies for speeding up your reading 727
Making notes 722
Note-making styles 723
Shortcuts in note-making 725
Making notes with confidence 726
Recording and using information 727
Plagiarism 728
Detecting plagiarism and copying 729
References 730
Giving references 731
Writing out references 732
Getting the most out of lectures 733
Lecture notes: cover sheet 734
How helpful are your notes 735
Problem-solving 736
Practicals and laboratory work 737
Review 738

7 E-learning, technology and personalised learning 739

Using computers for effective study 740
Basic health and safety when using a computer 747
What computer skills do I need? 742
Organisational skills for studying on the computer 744
ICT and e-learning: key terminology 746
Making the most of the internet 747
Searching online 748
Conducting an online search 749
Narrowing or extending your online search 750
Advanced online searches 757
Academic resources online 752
What is e-learning? 753
E-learning: getting started 754
E-learning and personalised learning 755
Personalised e-learning: portals and VLE 756
E-learning: wikis, blogs, podcasts 757
Using e-communications for study 758
Personalising your own study 759
More about personalising your study 760
Managing an e-project 767
Managing e-communications for projects 762
Managing an e-project: planner 763
Review 766

8 Writing for university 767

How good am I at managing writing tasks? 768
Writing for the fearful 769
Developing your writing 770
Anxieties about writing 770
Similarities between academic writing and other activities 777
Overcoming writer's block 772
Tricks for getting started 773
Students' solutions to writing blocks 774
Essays and other academic writing 775
A seven-point procedure for writing assignments 776
Analysing the title 778
Academic keywords used in titles 779
Devising your own essay title 780
Common features of all academic writing 787
Structuring your writing 782
Organising information: planning your writing 783
Structuring an essay 784
Planning your writing assignment 785
Planning stages 786
Concept pyramids organise ideas 787
Essay plans as pyramids 789
Writing drafts 797
Paragraphs 792
Checking your paragraphs 794
Linking ideas together 795
Editing your draft 796
Editing final drafts 797
Presenting your writing 798
Lecturers' preferences 799
Review 200

9 Developing your writing 207

Stylistic conventions for academic writing 202
Being precise 204
Using facts, opinions or arguments 204
Writing for different subjects 205
Alternatives to the scientific model 207
Polar opposites in academic approaches 208
Different styles 209
Descriptive writing 270
Argumentative/analytical writing 277
Framework for an argumentative essay 272
Evaluative/analytical writing 273
Framework for a 'compare and contrast' essay 275
Using personal experience 276
What gets good marks? 277
Using feedback from tutors 278
What is an essay like? 279
Review 224

10 Confidence with numbers 225

What do I need to know? 226
Build your confidence with numbers 227
Can you trust numbers? 229

Questioning numbers and statistics 230
Fractions 231
More about fractions 232
Using fractions 233
Understanding percentages 234
Calculating percentages from fractions 235
Rounding up and down 236
What are 'averages'? 237
Calculating averages: the mean ('equal share') 238
Calculating averages: the median ('middle number') 239
Calculating averages: the mode ('most frequent') 240
Comparing means, medians and modes 240
Five-number summaries and quartiles 241
Using five-number summaries 242
Using tables, charts and graphs 243
Interpreting graphs 244
Interpreting tables 245
Interpreting charts 246
Technical terms 247
Review 248

11 Projects, dissertations, reports and case studies 251

What is a project? 252
What is a dissertation? 253
Independent study: benefits, challenges, risks 254
Managing projects and other independent study 255
Choosing the title 256
Developing a research strategy 257
Designing questionnaires 259
Interview techniques 267
Presenting and analysing the data 262
Characteristics of reports 263
Structuring reports 264
Writing the report: opening sections 265
Writing the report: the body of the report 266
Writing the report: conclusions, recommendations, abstracts 267
Reports: layout, presentation and style 268
Project and dissertation checklist 269
Dissertation action plan 270
Case studies 272
Writing a case study 273
Review 274

12 Critical analytical thinking 275

Develop a detective-like mind 276
Critical thinking when reading 277
Critical analytical thinking 284

Critical thinking when writing 285
Critical analytical writing vs. descriptive writing 286
Identifying critical and descriptive writing 287
Feedback on the activities 289
Review 292

13 Memory 293

Individual memory styles 294
Check your memory style 295
Improve your memory 296
Using the brain 297
The triune brain 298
Stages of the memory process 300
Suggestions for multiple encoding 302
Memory thrives on organisation 305
Pyramids, pattern notes and pictures 306
'Chunking' information 307
Review 308

14 Revision and exams 309

What does revision involve? 310
Effective revision 311
Revision strategies 373
Revision and exam preparation 374
Revision: seven-point action plan 375
Advance preparation for the exam 376
Exams 377
In the exam 378
Doing well in exams 379
Exam strategy 320
Dealing with stress 327
Managing stress 322
Review 324

15 Planning your next move 325

Study skills achievements 326
Evaluating achievement 332
Planning your future 333
Personal development already undertaken 334
Planning towards a career 335
Career readiness 336
Lifelong learning 339
Where next? Skills for success 340
Clarifying personal targets 343
Action plan for personal development planning goals 344

What now? 345
